

thread coupling sleeve for underground pneumatic rock drills

The thread coupling sleeve is made of high-quality alloy steel, ensuring durability and a long service life. With precision machining, it features minimal dimensional error and smooth connection.

Technical Specifications of Thread Coupling Sleeve

- **Specification:** middle stop
- **Thread connection type:** R32
- **Length:** 150 mm and 160 mm options available
- **Diameter:** 45 mm
- **Material:** high-strength alloy steel
- **Manufacturing process:** full carburizing heat treatment
- **Weight:** from 1.0 kg to 1.1 kg

Coupling sleeve	L (mm)	L (inch)	D (mm)	D (inch)	Thread	Order number	Weight (kg)
Middle stop	150	5 7/8	45	1 3/4	R32	B302-4515-6464	1.0
	160	6 5/16	45	1 3/4	R32	B302-4516-6464	1.1
